Notes from today's meeting. I hope I captured most of it. Sometimes it was hard to hear people across the table in the conference room so you could double check with Kim on these.

Lots of people there: Water, ATSDR, ORC, SF, RCRA and me from ARD ☺

People introduced themselves but I wasn't able to hear everyone's name and they spoke quickly

Ex. 5 - Deliberative Process

That would be great – thanks! No problem to leave a little early at all.

I can call in from 10-just before 11 as I work from home tomorrow. I offered to open the conference line for another meeting I have from 11-12. If this works, I will call in and take notes for you.

Subject: FW: Wolverine Team Meeting

Hi Alexis and Maggie,

I can't make this meeting tomorrow. Kim suggested it might be helpful to have someone from ARD sit in to see what our follow up items might be on Wolverine. Is there a chance one of you could attend or call in? If not, I'll get the notes.

Thanks,
Erin
